Product Name :	**Product Code :**
General Cycle Refrigeration and Air Con Trainer	NLAB-ENGINEERINGLB103001

Description :

General Cycle Refrigeration and Air Con Trainer

Technical Specification :

The trainer is a completely self contained and fully operational unit that contains the basic components found in many refrigeration and air conditioning systems.

This trainer introduces the student to the basics of refrigeration and air conditioning.

These components have been mounted onto a special table top frame and are clearly laid out and identified for student examination.
