Product Name :	**Product Code :**
Glass Microfiber Filter Paper Whatman	NLAB-SCIENTIFICIND13004

Description :

Glass Microfiber Filter Paper (Whatman)

Technical Specification :

45µm pore size or Cellulose Nitrate, suitable for water quality ;

membrane diameter 47mm pore size;

white in color

These depth filters combine fast flow rates with high loading capacity and the retention of very fine particle, extending into the sub-micron range.

Ideal for use in applications involving air filtration and for gravimetric analysis of volatile materials where ignition is involved
