Product Name :	**Product Code :**
Impact Soil Tester	NLAB-SOILELAB140037

Description :

Impact Soil Tester

Technical Specification :

Used to obtain an indication of the degree of compaction of soil in road construction. Results can be directly correlated to the CBR test. The unique microprocessor system automatically checks all readings throughout the test and displays the fourth reading as the Impact Value. An essential trench control tool for all cable and pipe laying service contractors.

Technical Specifications:

Battery operated (rechargeable)

Graphic display 128×64 pixel

Measuring range up to 102 IV (Impact Value)
