Product Name :	**Product Code :**
Manual Microtome	NLAB-LABORATORYEM28016

Description :

Manual Microtome

Technical Specification :

Streamlined body made by ABS reduces cleaning to minimum

Trimming button makes it easy to switch from trim and cut mode

Specimen retraction mechanism protects specimen from blade injury

Specimen feeding system with latest advanced technology makes specimen feeding more precise

Seamless moving with international advanced slide way and groove is free for lubrication and maintenance, which makes sure the precision of sample moving

Hand wheel force balancing system: a special system for adjusting the balancing force during sectioning, making rotation easier and smoother

The disposable blade can move horizontally to avoid the dangers of manual contacting to the blade. Every blade cuts specimen by three parts, which ensures the entire use of blade edge

The waste tray collects sectioning debris, easily removable for cleaning

Adjustable specimen clamp base helps to change cassette clamp or pincers clamp quickly

Specimen orientation on X/Y axes 8°
