

Product Name :
0 30V 3A Dual Power Supply

Product Code :
NLAB-TESTINGLABM16004

Description :

0 30V 3A Dual Power Supply

Technical Specification :

Dual DC Power Supply is designed as a Constant Current (CC) and Constant Voltage (CV) source for use in laboratories, industries and field testing. With compact size, light weight and low power loss, it provides DC output voltages for Analog and Digital testing.

The DC output can be adjusted from 0 - 30 V with coarse and fine controls. Current limit is adjustable from 0 - 3A. Over loading is indicated by LED.

A 3-digit LED display for voltage and current is provided to read the values. These two parameters can be switched to display either voltage or current.

has excellent line and load regulation and is provided with protective circuits to ensure trouble free operation.

Product Features

Pre-Regulator based design

Floating DC Supply voltages

Dual DC : 2 x 0 - 30 V/ 3 A

Automatic Overload Current Protection

Constant Voltage & Constant Current Operation

Digital Display for Voltage and Current

Adjustable Current Limiter

Excellent Line & Load Regulation

Low Ripple Voltage
