

**Product Name :**  
0 30V 5A DC Power Supply

**Product Code :**  
NLAB-TESTINGLABM16003

**Description :**

0 30V 5A DC Power Supply

**Technical Specification :**

DC Power Supply is designed as a Constant Current (CC) and Constant Voltage (CV) source for use in laboratories, industries and field testing. With compact size, light weight and low Power loss, it provides DC output voltages for Analog and Digital testing.

The DC output can be adjusted from 0 - 30 V with coarse and fine controls. Current limit is adjustable from 20 mA to 5 A. Over loading is indicated by LED. After crossing the Specified limit a audible beep will sound. A 3-digit display for voltage and current is provided to read the values. These two parameters can be switched to display either voltage or current. Scientech 4180 has excellent line and load regulation and is provided with protective circuits to ensure trouble free operation.

**Product Features**

DC 0-30 V / 5 A

Floating Output

Selectable display for Voltage & Current

Low Ripple Voltage

Excellent Line and Load Regulation

Large Display
