

Product Name :
Abrasion Resistance of Concrete

Product Code :
NLAB-EDUSCHOOLEQ204001

Description :

Abrasion Resistance of Concrete

Technical Specification :

Abrasion Resistance of Concrete therefore becomes difficult to assess because of various modes of abrasive actions.

Due to abrasion caused by various factors such as sliding, scraping and abrasive materials carried by water etc.

However, the evaluation of the relative resistance of a concrete surface is possible using proper test methods.

Concrete Abrasion Resistance machines suitable for two test methods:-

Abrasion Charge Method.

Underwater Method.
