

**Product Name :**  
Axial Fan Demonstration Unit

**Product Code :**  
NLAB-MECHANICALAB230001

**Description :**

Axial Fan Demonstration Unit

**Technical Specification :**

Axial Fan Demonstration Unit: The designed advanced axial fan produces gas flow by virtue of the momentum changes imparted across the rotary blades, parallel to the axis of rotation. Such fans are more suitable for higher flows at lower delivery pressures than their centrifugal counterparts. Comparison of the performance characteristics of the Axial Fan with those of the Centrifugal Fan thus provides an instructional exercise of valuable practical application
