

Product Name :
Basic Electrical Measurement Trainer

Product Code :
NLAB-EDUSCHOOLEQ192002

Description :

Basic Electrical Measurement Trainer

Technical Specification :

The trainer provides a set of components modules which are specially designed for performing all experiments of electrical measurements.

The Basic Electrical Measurement Trainer is ideal for learning the fundamentals of electrical measurement.

The experiments will guide the students in learning the theory and practical aspects of basic electrical measurements as well as the use of various instruments.
