

Product Name :
Basic Electricity Circuit Lab

Product Code :
NLAB-ELECTRICALAB150001

Description :

Basic Electricity Circuit Lab

Technical Specification :

Basic Electricity Circuit Lab

Featured

- Ideal for students to learn the design of electrical, electronics and digital logic circuits.
- To learn efficiently, power supply, function generator and measurement unit are all included.
- All supply units are secured with overload protection.
- With one main unit, user can choose the needed modules for different learning topics.

Description

This is ideal for electrical, mechanical, automotive, science, civil & electronics engineering learning.

All necessary equipments for electric circuit experiments such as power supply, function generator, analog and digital meters are installed on the main unit for the requirement of experiment.
