

Product Name :
Basic Hydrology System With 2x1 M Pool

Product Code :
NLAB-EDUCATIONTVET14015

Description :

Basic Hydrology System With 2x1 M Pool

Technical Specification :

Relationship between rainfall and runoff

Studies of underground flows and variable border flows

Permeable basin supplied with rainwater by 8 suction nozzles and / or groundwater from the ends of the basin

20 pressure taps for measuring the profile of the water table

Possibility of measuring the drawdown of the water table due to one source or two combined sources

Models for surface flow studies
