

Product Name :
Bitumen Compactor

Product Code :
NLAB-BTMENLAB150003

Description :

Bitumen Compactor

Technical Specification :

The Automatic Bitumen Compactor eliminates the laborious process of manual compaction and an even degree of compaction is achieved. The drive mechanism lifts the weight of 4.5 kg and drops it through a correct height of 457 mm. The rammer foot is removable, which facilitates preheating. A compaction pedestal with specimen holder is fixed to the base. An automatic blow counter enables the number of blows to be preset before each test and automatically stops the machine on completion. Suitable For : 230 Volts, single phase

Salient Features

- For 4" mould

- For 6" Marshal mould
- Universal for 4" and 6" Moulds
