

Product Name :
CDROM Trainer Board

Product Code :
EC251

Description :

CDROM Trainer Board

Technical Specification :

CDROM Trainer Board

Understanding DVD/CD Player is an ideal platform to enhance education, vocational training. Understanding DVD/CD Player is a simplified training platform to learn the operation of Optical Disc Player. It is demonstrator cum training system specifically designed for the comprehensive practical study on Optical Disc player for the beginners with a basic knowledge of the various electronic building blocks and fundamentals of communication system.

This didactic product develops the sense of investigation within the student and familiarizes him with repair/design techniques. One of the main features of this training system is fault simulation to educate on actual fault finding, by simulating faults on this platform. The complete block diagram of DVD/CD Player is printed on the mimic.

Finally this equipment allows us to do experiments and to observe waveforms/signals/voltages of different sections, which are guided thoroughly by theory and product tutorials to gain in-depth knowledge of the system.

Features:

- Manual and Remote Control Operation
- DVD/ VCD/CD/ MP3/ JPEG/ WMA Playback
- PAL/ NTSC video formats
- USB reader (2.0)
- Composite video output
- Complete block diagram of a DVD/CD Player on-board

The different circuit sections of DVD/CD Player exposed on PCB
Easy identification of different parts and components of the system at a glance
Easy measurement of voltages and observation of waveforms on test points Soldering free fault creation and troubleshooting
