

Product Name : Chromatography Paper	Product Code : NLAB-CHEMICALSIND19010
Description : Chromatography Paper	
Technical Specification : Chromatography Papers are the most widely used papers for Chromatography worldwide. These qualities are relied upon by Chromatographers and are essential to successful, reproducible Chromatography. Chromatography Paper media are made from specially selected cotton cellulose. This acceptance and usage reflect the purity, high quality, and consistency of papers. The chromatography paper product line includes standard cellulose and ion exchange grades. They are rigorously quality controlled for characteristics important to the Chromatography and to ensure uniformity within the grade.
