### Product Name : Combustion Analyzer Kit

#### Product Code : TK498

## **Description :**

Combustion Analyzer Kit

## **Technical Specification :**

Confirm set up parameters (to manufacturers specifications) Verify proper combustion, equipment efficiency and integrity Analyze combustion gas makeup and stack gases Set gas pressures Measure temperatures for live fire of gases, temperature rise and differential drops across coils, inlet and superheat readings Perform pressure test for drops across coils, gas pressures, limit switches, building pressures and zone pressures Document equipment performance before and after servicing tests to show compliance Combustion Analyzer: Unique Rotary Selector. Protective Boot w/ Integral Magnet. Real Time Clock. CO Readings to 1ppm. Large 2 Line Backlit Display. Infrared Printer Port. Measures: Flue temperature, Oxygen, Carbon Monoxide (CO).

Calculates: Carbon dioxide, Gross/net efficiency, Excess air, CO air free.

Infrared Printer: New design w/ protective rubber boots/ built-in magnet for hands-free printing. Infrared Port reads up to 3' away & allows 60 angle up to 18" away. Communicates with Commercial and Residential Combustion Analyzers & analyzers using HP protocols. Self-test and battery condition function. Detects incorrect or missing information. Automatic power down. Paper advance. Includes: **Combustion Analyzer** Infrared Thermal Printer AC Adapter Soft Carrying Case Particle Filter - (1) 17631 Thermal Printer Paper Roll - (1) #16646 With full accessories: All components and leads made to protect the safety of the students according to the laws in force. It provided with manual in English language
