

**Product Name :**  
Concrete Lab Thermometer

**Product Code :**  
NLAB-EDUSCHOOLEQ204006

**Description :**

Concrete Lab Thermometer

**Technical Specification :**

Temperature of concrete at the time of placement is important to control and to avoid many possible difficulties. In hot climates, it is important to measure the temperature of the fresh concrete to ensure it is not too hot, which could cause flash setting and rapidly reducing. Measurements are generally taken at the point of placement.

The Concrete Thermometers are available in following types.

Mercury in Glass type or Alcohol in Glass type

Dial type

Digital type.
