### **Product Name:**

Corrosion Studies Kit

### **Product Code:**

NLAB-TECHNICALAB37010

## **Description:**

Corrosion Studies Kit

## **Technical Specification:**

The corrosion studies kit allows simultaneous study of up to eight corrosion cells each containing three test specimens.

Sample mounting in a manner to minimise secondary effects.

Corrosion rates measured visually and by weighing.

Stirring by air or inert gas.

Comprising:

A service panel

Air pump

Eight test cells of glass construction, with specially machined lids enabling samples to be mounted

Test cell supports
