

Product Name :
Cylindrical Grinder

Product Code :
NLAB-MACHINELABWK22009

Description :

Cylindrical Grinder

Technical Specification :

The Universal Cylindrical Grinding Machine ideally suited to performing repetitive grinding operations or small quantity reduction with equal ease. .

Features of our existing range of machines. All models have hydraulic and mechanical able traverse. Wheel Head rapid approach for the operating conveniently. In all models variable speed of work head and internal grinding spindles facilities are available if required on all models. We use antifriction turcite "B" slid-way material on the slides in all our models. Hand - operated lubrications pump for sufficient lubrication of slides. Surface finish 2 microns (improved values can be obtained by using selected grades of grinding wheel applicable to material to be ground).

Standard attachments :

A coolant pump fitted on a tank, Diamond Dresser 2 nos., Oil can, Dead Center 2 nos., Tool kit.

Additional attachment extra cost :

Internal Grinding Attachment, Balancing Stand, Balancing Mandrel, Three Points Steady Rest, Two points Steady Rest, Radius Truing Device, Spare wheel Flange, Independent Four Jaws Chuck, Magnetic Coolant Pump, Grinding Gauge.
