Product Name:

Diesel Engine Test Bench For Advanced Training

Product Code:

TK995

Description:

Diesel Engine Test Bench For Advanced Training

Technical Specification:

Diesel Engine Test Bench â€" For Advanced Training

The system is designed for the study and the understanding of the four-stroke single-cylinder diesel combustion engine. It is possible to perform the necessary tests to obtain the engine characteristic data referred to the performance of the engine. The engine test bench is supplied with a complete computer system, in order to carry out several practical experiments. All the characteristics of the curves can be monitored and recorded.

Motor - Characteristic of the curves:

Torque - Rotational speed.

Brake horsepower - Rotational speed.

Temperature - Rotational speed.

Air/fuel ratio - Rotational speed.

Specific fuel consumption - Rotational speed.

Main Characteristics:

The test bench is supplied in two parts:

A four-stroke diesel engine

A Braking system (a three-phase asynchronous motor which can work as motor and generator, controlled by an inverter). The engine test bench is supplied with a complete computer system, in order to carry out several practical experiments. All the characteristics of the curves can be monitored and recorded.

Technical data - Motor bench:

Phone: +91-9896600003

Framework made of aluminum.

Wheels for easy displacement.

Bench legs equipped with cushioning system to avoid vibrations.

Technical data - Digital sensors

Load cell for mechanical torque measurement.

Thermocouple for exhaust gas temperature measurement.

Electronic speed tachometer. Flow meter for air consumption. Flow meter for fuel consumption.

Technical data - Four-stroke single-cylinder diesel combustion engine

Motor speed: 3600rpm Power: 3.5kw at 3600rpm Torque: 10.5nm at 2000rpm

Displacement: 243cc

Stroke: 65mm

Compression ratio: 22:1

Weight: 28kg

Electric motor:

Type: Asynchronous three phase motor

Power: 7500W Voltage: 380V

Motor speed: 2880 rpm at 50Hz

General Characteristics: Two training benches

Weight: 300 kg

Input power supply: A.C 3-phase 400V $\hat{A}\pm$ 10% 50Hz Operating functioning temperature: -40 \hat{a} , f to +50 \hat{a} , f
