Product Name : Product Code :

Digital Trinocular Microscope With LED Illumination NLAB-EDUSCHOOLEQ1730112

Description:

Digital Trinocular Microscope With LED Illumination

Technical Specification:

Trinocular port can be used to deliver the image via a digital camera or an LCD screen.

3.0 megapixel digital eyepiece camera, offers USB 2.0 plug-and-play compatibility and comes with a user-friendly imaging software.

Reversed quadruple nosepiece (ball bearing type) with four DIN achromatic objectives which are parfocaled, parcentered, and color-coded, assists in trouble-free slide changes.

LED illumination with intensity control, guarantees a clear and crisp, cool-to-touch white light that lasts up to 60x longer than traditional tungsten bulbs.

Series 40X-1000X.

Built-in mechanical stage is low-profile and ball-bearing, ensuring easy mobility and precise control of specimen under observation. Slip-clutch focusing system protects gears from damage.

30° inclined trinocular head rotates 360° allowing for reverse position viewing and trouble-free observation for two people.
