

Product Name :
Electric Circuits Lab

Product Code :
NLAB-ELECTRICALAB150004

Description :

Electric Circuits Lab

Technical Specification :

Electric Circuits Lab

Featured

- Ideal for electric circuit experiments and design exercises.
- Integrated trainer with complete curriculum.
- Complete with power supplies and test systems for easy and efficient experimentation.
- Universal breadboard (1680 tie points) for circuit design and prototyping.
- All modules equipped with an 8-bit DIP switch for circuits fault simulations.

Description

The Linear Circuits Lab(1) Electric

Circuits Lab is a comprehensive and self-contained system suitable for tuition and experimentation with electric circuits.

All necessary equipments for electric circuit experiments such as power supply, function generator, analog and digital meters are installed on the main unit.
