

Product Name :
Electronic Control Trainer

Product Code :
NLAB-EDUSCHOOLEQ188002

Description :

Electronic Control Trainer

Technical Specification :

This trainer provides a comprehensive course on Solid State Relays (SSR) and their applications.

SSR's generally provide more flexibility in their control applications and easily combine low voltage and high voltage circuits working in conjunction with each other.

This trainer also provides a good introduction to semiconductor applications and theory.

SSR's are typically used as the modern replacement to conventional electromagnetic relays.
