

Product Name :
Eye Protection Ultra View IR

Product Code :
NLAB-SAFETYLABP18024

Description :

Eye Protection Ultra View IR

Technical Specification :

Impact Protection: Tested and certified to impact protection to Level B confirming against medium energy impact of 120 Metres/sec [432 km/hour].

Frame: Non-allergic soft co-polymer for pressure free long duration use

Head-band: Soft elasticated with locking clips.

Lens:

Material: Polycarbonate.

Shade : 5

Coating: Scratch-resistant coating and antifog coating on both sides.

UV protection: 99.99%.

Optical class: Class-I

Marking 5 U 1B CE

Features:

Good field of vision having panoramic lens shape allowing 180 degree uninterrupted lateral vision.

Extremely comfortable for all-day wear and protect against typical Hazards like flying particles, splashing material, dust and other General hazards

Provides protection to eyes, brow and the area around while Performing passive welding.

Integrated indirect ventilation allowing air movement directly across the lens while protecting against hazards.

The weight of the goggle is 75 grams approximately.

Ideal in field of use of:

Ideal for gas welding, cutting, brazing, passive welding etc.

High speed flying solid materials.

Large dust particles.
