#### **Product Name:**

Field Inspection Testing Kit

### **Product Code:**

NLAB-SOILELAB140026

## **Description:**

Field Inspection Testing Kit

## **Technical Specification:**

Especially designed to mesure the undrained shear strenght (CU) of cohesive soils, consists of a cylindrical body with a torsional spring and three interchangeable vanes of different sizes used depending upon the expected strenght of the soil. The height/diameter ratio of all vanes is 2. During operation the vane is driven for 5-6 cm into the soil and then turned with the handle. Deep measures (i.e. on the top of undisturbed samples) can be obtained using the extension rod ( see accessories).
