Elastic intake on back.

Accessories:

Fireman helmet.

Fireman hand gloves, waterproof and fire resistant.

Fireman boots.

Size: M/L/XL.

Applications: Fire fighters is a revolutionary heat and flame-resistant fiber, providing protection to millions of workers worldwide. Professional disaster management groups particularly fire fighters have been using the flame-resistant garment made of fiber. Unpredictable fires situations could create situations where temperatures could reach around 19000 Fahrenheit. This leaves workers vulnerable to serious injury. Innovative fiber is a blend of 93% with 5% Aramid and 2% anti-static fiber. This fiber forms a protective guard to skin.
