

Product Name :
High Voltage Power Supply

Product Code :
NLAB-SCHOOLABS17016

Description :

High Voltage Power Supply

Technical Specification :

For use with tube spectrum lamps or cathode. Inside there is a circuit that can generate voltage higher than 12000V. There is an on-off switch and a switch for switching the positive-negative pole. without having to disconnect the new power cable There is a fuse to protect against overcurrent. The structure is made of good quality materials, strong and durable
