

Product Name :
Inorganic Atom Molecular Model Set

Product Code :
NLAB-EDUSCHOOLEQ120002

Description :

Inorganic Atom Molecular Model Set

Technical Specification :

Inorganic Atom Molecular Model Set - The joining pieces are carefully designed to ensure models are firmly constructed so they can be passed around during the lesson without fear of falling apart.

They can be used by students at all levels, to represent simple substances right through to more complex structures like Buckminsterfullerene and ionic lattices. Molecular models help the teacher convey a concrete representation of the molecular world. Excellent quality models produced from precision engineered moulds and materials.

Each kit comes in a durable storage case with compartments for segregation of parts.

The range of models included in the Model Sets range is designed to enhance teaching of the UK and US curricula.
