

Product Name :
Kaplan Turbine Test Rig

Product Code :
DM196

Description :

Kaplan Turbine Test Rig

Technical Specification :

Kaplan Turbine Test Rig With its FRP lining for rust protection, this Kaplan Turbine Test Rig 1HP is highly appreciated for its sturdy and durable construction. This product is used for the purpose of measuring the discharge and the efficiency of the Kaplan. Indebted to its efficiency level and competitive pricing, this product is highly demanded in the market.

The range of Experiments:

Explain the working principle of the Kaplan turbine

Calculate the input power, brake power and the efficiency of the Kaplan turbine given the necessary set up

Draw characteristic curves of the Kaplan turbine.
