Product Name:

LAN Trainer System

Product Code:

EC845

Description:

LAN Trainer System

Technical Specification:

LAN Trainer System

Understanding of Local Area Network (LAN) training system.

Understanding of Local Area Network (LAN) provides the understanding of all the fundamentals of networking. It helps the users to gain knowledge of all network layers, cable designing and building of a complete network of computers.

The users can understand and actually implement various topologies using different standards given by IEEE. Actual connections can be made in different topologies and data can be transferred. The users will understand the protocols, topologies used in networking, measurement of error rate, throughput and effect of errors on protocols. The versatile software provided with assist the users to observe the various effects and configurations on a network along with the graphical representation.

Understanding of Local Area Network (LAN) is an ideal teaching aid to enhance education, training, skills & development amongs our young minds.

Product Features:

PC to PC communication with IEEE 802.3

Peer to Peer network

Client - Server network

Design of Star topology using 100Base-Tx

Design of Bus topology using 10Base-2

Design of Ring topology using DB9

Phone: +91-9896600003

Email: sales@naugralabequipments.com

Simulation of Distance Vectors and Link State Algorithms

Socket Programming exercise for LINUX Encryption/Decryption Technique User can send any file over LAN.

Detailed introduction to TCP/IP Model (4 Layer Model)

Video Tutorials for software operation

Creation of cables for network connections

Network design using RJ45 & DB9 connectors

Socket programming and processing

Wireless LAN with 803.11b/g

Network monitoring

Various LAN Protocols

Data rate up to 100Mbps

Variable packet size

Variable packet delay

Error generation (Manual and Auto)

Color coded real time graphical representation of entire transmission & reception

Graphical Analysis of LAN performance with various parameters and protocols Save / Print option for graphs

User friendly software

Switch faults in both hardware & software

Exhaustive course material & references

On Board Touch Switch

Local Area Network Trainer

Features:

Comprehensive experiment setup explaining various physical topologies of LAN, viz. Token Ring, Token Bus, Ethernet (CSMA / CD), Modbus, etc. and variety of TCP, IP, HTTP, SMTP, etc.

Protocol demonstrator through error generation facility sans socket programming Table top setup using sturdy aluminium profile flat demo rack.

Complete with cables, connectors, RS 232 to RS 485 converter, etc.

Types of LAN:

Token Ring IEEE 802.5

Token Bus IEEE 802.4

Modbus (Industrial LAN).
