

**Product Name :**  
Light Sensor and Transistor Learning Kit

**Product Code :**  
NLAB-SCHOOLABS16007

**Description :**

Light Sensor and Transistor Learning Kit

**Technical Specification :**

To study the working principle of a light sensor or a photosensitive resistor. Learn to use transistors as switches. Through simple lamp circuit activities, motor on/off with photosensitive resistor, lamp on/off circuit with transistor, building light sensor from LDR and transistor. and activities to assemble light sensor robots
