

Product Name :
Motor Generator System

Product Code :
NLAB-EDUSCHOOLEQ190002

Description :

Motor Generator System

Technical Specification :

The control panel includes a volt meter, ampere meter, and all wiring connections brought out to 4mm terminals.

Operation and experiment manuals are provided in English.

The Motor Generator System is an integrated system for in-depth studies on Motor Generator theory and working principles.

The system is mounted on its own base plate with an upright control panel and the combination is connected via a flexible coupling.
