Product Name :	**Product Code :**
Naugra Lab Heated Bath Circulator	NLAB-LABORATORYEM46017

Description :

Naugra Lab Heated Bath Circulator

Technical Specification :

Heated Bath Circulator

Heated Baths Circulator designed for controlling above ambient temperatures in external instrumentation or for immersion applications.

A very handy tool for general lab requirements and applications.

Compact space saving concept can be placed under or over the work-bench.

Effective water/liquid heated circulator for tighter temperature controls.

Reduces tap water consumption thus reducing high cost of water and waste water.

Waste water does not contain hazardous substances thus eliminating danger to personnel and environment caused by solvents.

Builts in circulator pump for efficient circulating processes. Offers highest level of performance, flexibility and control for most demanding applications.

Industrial grade energy effecient heaters reduces power bills drastically

Low noise level.
