

Product Name :
Naugra Lab Precision EDM Machine

Product Code :
NLAB-EDUCNCLAB110040

Description :

Naugra Lab Precision EDM Machine

Technical Specification :

Precision EDM Machine uses electrical discharges or sparks for obtaining the desired shape.

Reverse sparks are also possible with these high functionality machines.

Before the final dispatch, the entire range is checked for its flawlessness.

Offered in a varied series of specifications, these efficient and extremely durable electric discharge machining are consistent in operation and consume less electricity.

Feature:-

Two Part Design
