

Product Name :
Optical and Optical Kit with Light Box

Product Code :
NLAB-SCHOOLABS21016

Description :

Optical and Optical Kit with Light Box

Technical Specification :

An experimental kit to study the properties of light, reflection, refraction and image formation in more than 10 activities such as Activities to study images caused by concave and convex lenses, total reflection of triangular prisms, etc.

consist of:

Slide rail with scale, length 1.2 meters, magnetic board with angle scale. for attaching equipment Convenient to experiment and see the results clearly.

Concave lenses, convex lenses, mirrors, prisms of various forms. and light filter, light

source 12V 20W Magnetic base Compatible with both rails and magnetic boards

The device is packed in an aluminum case with a carrying handle.
