

Product Name :
Osborne Reynolds Flow Regimes Demonstration Module

Product Code :
NLAB-EDUCATIONTVET14006

Description :

Osborne Reynolds Flow Regimes Demonstration Module

Technical Specification :

The set makes it possible to carry out the classic Osborne Reynolds experiment and to observe laminar, transient, turbulent flows and the velocity profile.

The test tube has a diameter of 10 mm and a length of 700 mm. The flow through this tube is regulated by a valve. The injection system

of dye is similar to that used by Reynolds (0.45 l capacity tank)
