

**Product Name :**  
Phase Separation Paper

**Product Code :**  
NLAB-CHEMICALSIND19012

**Description :**

Phase Separation Paper

**Technical Specification :**

Solvent phase allows passage through the organic phase while retaining the aqueous phase. The process terminates when the entire organic phase has passed through the filter, thereby providing a clean, particle-free organic phase. The phase separator paper can be used for all types of organic solutions, such as ether, petroleum, chloroform, etc.
