

Product Name :
Physics Lab Simple Pendulum With Stand

Product Code :
NLAB-EDUSCHOOLEQ158014

Description :

Physics Lab Simple Pendulum With Stand

Technical Specification :

The simple pendulum is an introductory exercise in experimental Physics.

A simple pendulum may be described ideally as a point mass suspended by a massless string from some point about which it is allowed to swing back and forth in place.

The other end of thread is tied to the rigid support.

Supplied with metallic base along with rod & knife edge, support & bracket

Consists of a brass bob of Min. 0.75inch dia.

Suspended by flexible and weightless stitching thread

The second end of thread is tied to rigid support

With heavy metallic base along with rod and special clamp
