

Product Name :
Process Control Trainer On-Off Control

Product Code :
NLAB-ENGINEERINGLB24004

Description :

Process Control Trainer On-Off Control

Technical Specification :

Sump tank

Level Tank

Temperature Cabinet

Centrifugal Pump

Piping

Temperature Transmitter

Electrical Control Panel

System Features

User friendly, self explanatory system

Compact Ergonomic design.

Leak proof safety measures, sturdy piping

Enhanced electrical safety considerations.

Training manuals for easy operation

System frame with caster wheel arrangement for easy movement

Inbuilt safety measures to avoid improper usage.

Process Equipments

A sump tank and polypropylene tank (secondary) containing water.

A control system for liquid level in secondary tank

An heater with temperature sensor for temperature control

Electrical control panel along with PC interface module

ON-OFF control: Level, Temperature.

Services Required:

230V Single phase AC supply, Water supply and its Drain Arrangement.

Data Acquisition Software

User friendly menu-driven software

Data logging

PC interface through RS232/USB Port
