

Product Name :
Programmable Logic Controller (FATEK PLC) Trainer

Product Code :
NLAB-ENGINEERINGLB45001

Description :

Programmable Logic Controller (FATEK PLC) Trainer

Technical Specification :

Programmable Logic Controller (FATEK PLC) Trainer Lab Equipments Manufacturer, Suppliers & Exporters

Since PLC (Programmable Logic Controller) was firstly introduced in 1970, it has been in common usage in various industries such as machine and process controls. Designed with the latest microprocessor and electronic circuitry, today's compact-size PLCs feature high level of reliability, performance, speed and networking. The use of PLCs in automated production lines enhances system reliability, product quality, information sharing, efficiency and flexibility and thus reduces costs.

is a self-contained trainer which consists of a FATEK PLC main unit and commonly used I/O devices for simulation. It provides students with a thorough understanding of the theories and applications of programmable logic controllers. This trainer enables students to learn step by step from the fundamentals of PLC to more advanced controls used in industry.
