

Product Name :
Programmer for ATMEL AVR ATMEGA AT90 PIC GAL SRAM CMOS

Product Code :
EC188

Description :

Programmer for ATMEL AVR ATMEGA AT90 PIC GAL SRAM CMOS

Technical Specification :

Programmer for ATMEL AVR ATMEGA AT90 PIC GAL SRAM CMOS

ARCELI TL866II Plus USB High Performance EEPROM Flash BIOS Programmer for ATMEL AVR ATMEGA AT90 PIC GAL SRAM CMOS

It can automatically identify the operating system to install and run under WIN2000 / WIN XP /WIN 2003/ WIN 2008/ WIN VISTA / WIN7 / WIN8 / WIN10 (32Bit/64Bit)

The programming speed is greatly improved . It is suitable for small batch production and supports 4 programmers for one computer.

A wide range of chip support, supports the chip 15000+, supports a variety of 24 25 26 27 28 29 37 39 49 50 series of serial and parallel memory chips, microcontroller 51 series, ATMEL AVR ATMEGA AT90 series, MICROCHIP PIC10 PIC12 PIC16 PIC18 series microcontroller , GAL programmable logic device programming, SRAM test,54/74 and CMOS4000 integrated circuit integrated functional test.

Support NAND Flash chip, the function is complete and comprehensive, the capacity supports to 8Gbits. 25 series Nor Flash capacity support to 512Mbits.

Pin contact check function, poor contact pin can pinpoint; Ultra-low power consumption: the entire programmer uses ultra-low-power chips, using USB interface, the first truly all chip programming without external power integrated programmer.
