

Product Name :
Resistivity Meters High Power

Product Code :
NLAB-EDUSCHOOLEQ48002

Description :

Resistivity Meters High Power

Technical Specification :

It has penetration of more than 600 meters.

Both the models are well proven in the field.

We have a long list of satisfied customers all over India & abroad.

Resistivity Meters High Power is a high power version (40 Watt) which is useful for any type of soil specially preferred for low resistivity soils of the coastal region.

Applications of Earth Resistivity Meter:-

Ground Water Exploration

Bed Rock Studies

Mining

Pipe line surveys

Civil Engineering

Environmental studies

Agriculture engineering

Geological and geo-technical mapping
