

**Product Name :**  
Rope Access Ascender

**Product Code :**  
NLAB-SAFETYLABP20005

**Description :**

Rope Access Ascender

**Technical Specification :**

Upper hole through which a karabiner attaches the device to the rope (useful for back-up belays or hauling).

Lower holes for connecting lanyard and installing foot loop with a standard karabiner.

Ascender handle are mechanical devices that attach onto a climbing rope and allow a climber to ascend the rope.

Plastic mould for better handling and isolating protection prevents the ascender from accidentally coming off the rope.

Works on 10.5 - 11 mm braided rope.
