Product Name:

Rubber Block Apparatus

Product Code:

NLAB-ENGINEERINGLB26004

Description:

Rubber Block Apparatus

Technical Specification:

Rubber Block Apparatus Lab Equipments Manufacturer, Suppliers & Exporters Description of Rubber Block Apparatus:

Rubber Resistance Apparatus Consists of a panel on which a block of Rubber as well as a console equipped with ab Dial are mounted. The comparator shows the degree of deformation of the block. A total shear load of 12 kg is permitted.

Experimental Ability of Rubber Block Apparatus:

Observation of the driving force and the Shear deformation on a rubber block.

Demonstration of the relationship between the Shear and shear deformation.

Determination of the stiffness modulus for the rubber
