

Product Name :
Sensors

Product Code :
EC647

Description :

Sensors

Technical Specification :

Sensors
Finger Print Module Arduino compatible
RFID Card Reader Module
Bluetooth module Arduino compatible
GSM module Arduino compatible
ZigBee module Arduino compatible
Sound module Arduino compatible
Joystick module Arduino compatible
Optical sensor; 30psi
Digital Temperature-Humidity sensor; LM35
Ultrasonic sensors; L298N
Laser module Arduino compatible
Relay module Arduino compatible
Rotary encoder module Arduino compatible
Thermistor Sensor Module Arduino compatible
keyboard Arduino compatible
Magnetic Field Sensor Arduino compatible
Motion (infra-red) Sensor Arduino compatible
Temperature Sensor Arduino compatible
Sound Sensor Arduino compatible

Moisture / Humidity Sensor Arduino compatible
Pressure Sensor Arduino compatible
Position Sensors Arduino compatible
Gas Sensor Arduino compatible
Light Sensor Arduino compatible
pH Sensor Arduino compatible
Smoke sensor Arduino compatible
Flame sensor Arduino compatible
Water Level sensor Arduino compatible
Ultrasonic sensor Arduino compatible
Voltage sensor Arduino compatible
LDR Arduino compatible
Servomotor Arduino compatible
Alcohol (MQ Sensor) detector Arduino compatible
Raspberry pi 4 Arduino compatible
Vision and Imaging Sensors Arduino compatible
Radiation Sensors Arduino compatible
Proximity Sensors Arduino compatible
Pressure Sensors Arduino compatible
Photoelectric Sensors Arduino compatible
Particle Sensors Arduino compatible
Motion Sensors Arduino compatible
Metal Sensors Arduino compatible
Level Sensors Arduino compatible
Leak Sensors Arduino compatible
Humidity Sensors Arduino compatible
Gas and Chemical Sensors Arduino compatible
Force Sensors Arduino compatible
Flow Sensors Arduino compatible
Flaw Sensors Arduino compatible
Flame Sensors Arduino compatible
Electrical Sensors Arduino compatible
Contact Sensors Arduino compatible
Non-Contact Sensors Arduino compatible
Distance Sensor Arduino compatible
Air Quality Sensors Arduino compatible
Liquid Level Sensors Arduino compatible
Flood Sensors Arduino compatible
Heat Sensors Arduino compatible
Drone Sensors Arduino compatible
RV Tank Sensors Arduino compatible
Radar Sensors Arduino compatible
Remote Sensors Arduino compatible
Sonar Sensors Arduino compatible
Current Sensors Arduino compatible
Body Sensors Arduino compatible
Wind Speed Sensors Arduino compatible
Reversing Sensors Arduino compatible
Thermal Sensors / Remote Thermostat Sensors Arduino compatible
Laser Sensors Arduino compatible
Wireless Sensors Arduino compatible
Magnetic Sensors Arduino compatible
Engine Sensors Arduino compatible

Precision Sensors Arduino compatible
Electronic Sensors Arduino compatible
Optical Sensors / Fiber Optic Sensors Arduino compatible
Custom Control Sensors Arduino compatible
Capacitive Sensors Arduino compatible
Catalytic Converter Sensors Arduino compatible
Angle Sensors Arduino compatible
Camera Sensors Arduino compatible
Inductive Sensors Arduino compatible
Home Sensors Arduino compatible
Parking Sensors Arduino compatible
Arduino compatible Color sensor
AS73211 XYZ True Color Sensor with I²C Interface
Industrial-grade XYZ color sensor with high sensitivity and dynamic range Supply voltage: 2.7 - 3.6v
Interface: fast I²C
Sensor channel: XYZ tri-stimulus CIE 1931/standard observer
Gain, integration time, interrupt, 16-bit output via shifter
Arduino compatible TCS230/TCS3200 Color Sensor
Power: 2.7V to 5.5V
Interface: digital TTL
High-resolution conversion of light intensity to frequency
Programmable color and full-scale output frequency
Communicates directly to microcontroller 10 pcs
TFT LCD Shield Touch Panel Display Module
Size: 2.4 inch
Resolution: 320x240
Quality: Ultra-HD
With ILI9341 Driver for Arduino Mega2560 R3 with Touch Pen
SPI HD Full Color TFT Display Screen
Size:1.14 inch
VCC:3.3V and 8 PIN
ST7789 Drive IC 135*240
HMI Smart TFT Screen Display Module with Touch Panel Size:7.0 Inch
Accessories: + Software Support Any Microcontroller Drive: STVA070WT-01
Touch Sensors Arduino compatible.
