

Product Name :
Site Investigation Lab Equipments

Product Code :
NLAB-TESTINGLABM14001

Description :

Site Investigation Lab Equipments

Technical Specification :

Collection of disturbed and undisturbed samples is fundamental for geo technical investigation of civil Engineering Structures. Careful sampling and specimen preparation is important for accurate determination of properties and soil behavior. A range of equipments required for boring, soil sampling and preparing soil samples for laboratory testing. We are offering below some of the equipments.
