

Product Name :
Soil Sampler Cutter and Extruder

Product Code :
NLAB-SOILELAB140029

Description :

Soil Sampler Cutter and Extruder

Technical Specification :

This versatile sampler can be used to extrude and prepare soil samples for the following soil mechanics tests:

consolidation

shear

triaxial

permeability

other tests

Various circular, cylindrical and square cutters are available from our range, depending on the geotechnical test to be performed. The cutter is gently (thank to the rack and pinion mechanism) pushed into the soil core and then extruded with the extrusion dolly. See the table of accessories for more details.
