

Product Name :
Solar Cell Experiment Set, 5 Experiments

Product Code :
NLAB-SCHOOLABS22006

Description :

Solar Cell Experiment Set, 5 Experiments

Technical Specification :

Study the conversion of solar energy into electrical energy according to the principle of solar cells. To make the motor spin, light up, or connect to an ammeter to read the current value or connect to a battery to store electricity to use with other devices, consisting of a 4.5V, 330 mA solar panel and a display with a tube. Light, ammeter, propeller motor, solar cell energy storage battery and wires for connecting the circuit
