

Product Name :
Solar Power Principles Training Bag

Product Code :
NLAB-SOLARLAB260029

Description :

Solar Power Principles Training Bag

Technical Specification :

-
- Consists of solar cells (0.5 volt)
- Current: 420 mA
- Number of cells: at least 4
- At least 1 base for components connection
- Includes light source, resistance, variable resistance, electric motor and color filter to control light intensity
- connection wires
- All components to be kept in a plastic box
- The solar cells shall be connected in parallel and series

- Perform all measurements (voltage, current and power, to obtain solar cell characteristics)
- Including multimeter, thermometer and power source
