

Product Name :
Sorting Concepts Instruments

Product Code :
NLAB-EDUSCHOOLEQ169035

Description :

Sorting Concepts Instruments

Technical Specification :

Two-dimensional shapes are a vital math topic for students. Use fun and exciting hands-on activities addressing shape names and properties that will motivate students. This allow students to be creative in their learning, developing their confidence in math and their enthusiasm for the subject.

Pattern Block (foam)

Pattern blocks offer a distinctive way for your child to learn shapes , Using geometric , color shapes such as triangle ,square ,parallelograms, rhombuses, trapezoids and hexagons, provide hands-on activities for learning fractions, shapes, addition, subtraction and other mathematical concepts. Geometry shape activities encourage your child to learn math with an entertaining approach. Kids also learn designs, relationships, angles, area, perimeter and symmetry with pattern block activities .Use these sets of 144 blocks, in six shapes and six colors, to explore pattern, symmetry, linear and area measurement.

Attribute Block

Attribute blocks sets include red, yellow and blue circles, hexagons, rectangles, squares and triangles. Attribute blocks are manipulative with different shapes, sizes, thicknesses and colors. Manipulative are objects that foster hands-on learning. Attribute blocks encourage logical thinking, problem solving and learning math vocabulary. The blocks are useful for early learners, but also work for more-advanced applications, such as symmetry, perimeter, area, tessellation and angles.

Pack of 60 Pcs.
