Product Name:

Spectrophotometer 400-1000nm

Product Code:

NLAB-EDUSCHOOLEQ45045

Description:

Spectrophotometer 400-1000nm

Technical Specification:

Spectrophotometer, the simple and practical laboratory instrument, is precisely designed and ruggedly built.

It features a large screen graphic LCD that gives you clear, quick, and accurate readings in Absorbance and Transmittance.

The USB port and RS232 port for data transfer and to interface with a Windows-based computer.

Its sample compartment is designed to accept both round optical glass, or square 10mm pathlength cuvette.

This classic spectrophotometer contains built-in secondary optical filters that reduce stray light and increase precision, giving more reliable results with basic training.

It is easy to use and is ideal for student use in high schools, colleges, and in general laboratory settings.

An optional software package is available that allows users to perform a wider range of analyses and documentation.
